

Dear Prospective Centennial Homeowner,

E.com Technologies, LLC doing business as (d/b/a) FirstMile Technologies is a certified telecommunications service provider in the State of Indiana.

Inside the Centennial Subdivision (including Centennial @ 146th Street), FirstMile is the only facilities-based telecommunications service provider. The Indiana Regulatory Commission requires that we disclose this fact to you as a prospective homeowner in Centennial.

What does this mean? It means that currently, FirstMile is the sole wire-line provider of local telephone service, including access to long distance carriers, within the Centennial subdivision.

FirstMile also provides Video Services (Cable TV) and Data Services (High Speed Internet Access), and Security Monitoring services.

Visit our website, www.firstmile.net, to learn more about the services we provide, bundled packages, and pricing.

Centennial is a unique and wonderful place to live. Our technology only adds to the many conveniences and features you will find in this wonderful Estridge Community.

Sincerely,

A handwritten signature in blue ink, appearing to read "C. Kunkle".

Craig Kunkle
Vice President
FirstMile Technologies
